

## MATH SHELF TABLET PROGRAM

Math Shelf is an evidence-based digital math program for Pre-K & Kindergarten students.

### Accelerated Math Growth

Children that play Math Shelf just 20 minutes each week learn two years of math in just 6 months.

### Individualized Learning

Math Shelf is individualized to meet each student's needs.

### Proven Results

Three published studies with over 1,000 students showed large increases in math achievement for English Learners, Head Start children, and state funded preschoolers.

## MATH SHELF ASSESSMENTS

Act on Fall, Winter & Spring assessment data to ensure every student is Kindergarten or first grade math ready.

- Integrated within the App
- Immediate Results
- No teacher proctoring required

### Accountability

Track student performance (fall, winter, spring) against state math standards.

### Growth Monitoring

Measure student progress throughout the year.

### Instructional Planning

Plan instruction based on assessment results.

## MATH SHELF HANDS-ON LESSONS

Teach small group, differentiated hands-on math lessons that boost students' skills and knowledge.

- Students are automatically grouped and taught for 10-minute hands-on lessons on their level.
- Requires minimal teacher prep and uses classroom math manipulatives.
- A lesson calendar groups students for instruction based on their Math Shelf level.
